## **FOR LATER RELEASE**

### **PinPark Set to Launch Revolutionary Parking Solutions at 2024 Web Summit in Lisbon**

*Lisbon, Portugal – November 11, 2024* – PinPark, an innovative leader in parking management technology, is excited to announce the official launch of its services at the 2024 Web Summit in Lisbon, Portugal. The event, scheduled for November, will serve as the global debut of PinPark’s cutting-edge platform that aims to revolutionize how drivers find and reserve parking spots.

PinPark offers a state-of-the-art hardware and software solution designed to eliminate the frustration of searching for parking. With a real-time app, users can instantly locate and reserve parking spots, streamlining the entire parking experience. Whether it’s parking garages, commercial centers, campuses, or government facilities, PinPark digitizes and manages parking spaces with ease. For those seeking extra convenience, premium spot reservations are available, similar to booking a table at a top restaurant.

“We are thrilled to unveil PinPark at the 2024 Web Summit, one of the world’s largest tech events. This is the perfect platform to introduce our innovative parking solutions to a global audience,” said Noman Khan, Founder and CEO at PinPark. “By making parking simple and stress-free, we’re not only improving user experiences but also helping reduce emissions and making cities greener.”

Attendees of the Web Summit will have the opportunity to experience firsthand how PinPark’s technology works, with live demonstrations and interactive sessions. The company’s innovative platform is set to make a major impact on urban mobility by reducing the time vehicles spend searching for parking, thus contributing to a cleaner and more efficient environment.

With the launch, PinPark aims to enhance customer satisfaction, boost business traffic, and create a positive environmental impact—all while turning the hassle of parking into a thing of the past.

#### **About PinPark:**

PinPark is a pioneering company in the parking management industry, offering real-time parking solutions for commercial entities, educational institutions, government sectors, and events. Through a combination of hardware and software, PinPark digitizes parking spaces, giving users the power to find and reserve parking instantly. The platform is designed to simplify parking, reduce emissions, and improve the overall driving experience.
