

Goalz GmbH Launches New Funding Round, at Web Summit 2024, to Accelerate Growth of Innovative Digital Platform for Athletes' Career Transition

Munich, October 19, 2024 – Goalz GmbH, an innovative start-up specializing in career planning for athletes, today announces the launch of its next round of financing. The company's digital solution enables athletes to smoothly transition from their sports careers to professional life while also supporting companies in attracting highly qualified and high-performing employees. We are happy to be a part of Web Summit 2024 and present our innovative platform to all of you.

A Forward-Looking Platform for Athletes and Companies

Goalz GmbH's digital platform bridges the gap between the worlds of sports and business, addressing two critical needs: First, it provides athletes with the tools and guidance to successfully reorient themselves professionally once their sports careers come to an end. Second, it offers companies a unique opportunity to recruit top-tier talent—athletes with exceptional discipline, determination, and performance abilities.

“Our platform offers a unique, innovative solution that caters to the specific needs of both athletes and businesses. We empower athletes to identify meaningful, long-term career paths and enable companies to tap into the incredible potential of these high-achieving individuals,” said Constantin Frommann, CEO of Goalz GmbH.

Call for Financing Partners, Business Angels, and Venture Capitalists

With this financing round, Goalz GmbH invites companies to join as financing partners and contribute to the continued development of this forward-thinking solution. The round is also open to business angels and venture capitalists who are passionate about supporting a socially valuable and innovative project. The goal of the funding is to enhance the platform's features and expand into new markets.
